

Application Note 174

The PP-50 and 55 series of portable printers is a versatile platform for adding data capture and printing functions to PDA type devices.

As the PP50 and 55 series has to be configured for the correct PDA device, this Application Note details both the available Model types, Model options and applicable Device which can be used.

Whenever possible, choose the PP55 series over the PP50 series, as the PP55 uses a faster processor.

	PRINTER MODELS & OPTIONS		
Base Model with no options	PP50S Serial	PP55S Serial	PP55U USB
with M agnetic Stripe Reader	PP50S-M	PP55S-M	PP55U-M
