DENSO
For the Very Future

Turn around Time.... 48 hours!

Our service team at the **UMD Service Centre** is committed to continual improvement in **Customer Service** and we aim to have your product repaired and dispatched within **48 hours** of receipt.

On Line Service System www.umd.com.au/smd

To assist with this aim, the **Service Centre** provides an interactive web site that enables customers easily to return products with the minimum of effort.

In addition, it provides the customer with the ability to monitor the progress of the service and repair process. Access via a direct link can be made to selected freight company's own tracking system. UMD can ship repairs overnight to most major centres across Australia.

Pick up service

Ask us about our pick up service. We can arrange our couriers to have your faulty equipment sent to us. Phone or e-mail us with your request for a complete hassle free service.

Spare Parts

We stock a large range of spare parts and specialise in **Intermec Spare Parts**

Maintenance agreements

We can also create a **customised support** package, for your maintenance and service agreements.
