1. Introduction

To use USB-connectable EPSON TM/BA/EU printers, it is necessary to install the USB device driver.

This manual explains how to install the USB device driver.

2. Operating environment

Personal computer

- AT compatibles
 - * This is restricted to devices that have USB ports and for which the manufacturer of the computer guarantees the operation of the USB port.

OS

- Microsoft Windows 2000
- Microsoft Windows 98 Second Edition

3. Verifying the computer's USB port

Check that the computer can use a USB before installing the USB device driver.

For Windows 2000

- 1. Right click on the My Computer icon and open [Properties].
- 2. Select the [Hardware] tab and click the [Device Manager] button to open [Device Manager].
- 3. Check that [USB (Universal Serial Bus) controllers] is displayed.
 - * If [USB (Universal Serial Bus) controllers] is not displayed, the USB device driver cannot be used.

For Windows 98 Second Edition

- 1. Right click on the My Computer icon and open [Properties].
- 2. Select the [Device Manager] tab and check that [Universal Serial Bus controllers] is displayed.
 - * If [Universal Serial Bus controllers] is not displayed, the USB device driver cannot be used.

4. Connection

The printer must be connected following the sequential order described in this manual.

If a different order is used, the printer may not function normally.

When connecting a printer directly to the computer

- 1. Switch on the power to the computer.
- 2. Connect the printer's AC adapter to the printer.
- 3. Connect the AC adapter to the power outlet.
- 4. Connect the USB cable's B connector to the printer's upstream port.
- 5. Switch on the power to the printer.
- 6. Connect the A connector for the already connected cable to the computer's USB port.

Next, proceed to [5. Installing the USB device driver].

When connecting a printer to a USB hub that is connected to the computer

- 1. Switch on the power to the computer and check that the connected USB hub is functioning normally.
- 2. Connect the printer's AC adapter to the printer.
- 3. Connect the AC adapter to the power outlet.
- 4. Connect the USB cable's B connector to the printer's upstream port.
- 5. Switch on the power to the printer.
- 6. Connect the A connector for the already connected cable to the downstream port for the USB hub that is connected to the computer.

Next, proceed to [5. Installing the USB device driver].
